

MobGen

Mobile Generation – iPhone / iPad developer at international mobile marketing agency in the heart of Amsterdam

MobGen

Are you a talented or experienced iOS developer, looking to join a fast-growing international mobile marketing agency and use your programming skills to develop iOS applications?

Join MobGen's talent program in Amsterdam for an exciting period of six months. Your skills will be tested while working on cutting edge applications, games and innovative solutions for the iPad and iPhone.

Mobile Generation (MobGen) is a full-service mobile marketing agency that helps national and international brands with the implementation of creative marketing activities into the mobile channel such as cross platform applications, online social media applications and mobile media banner campaigns. MobGen clients are Shell International, Redevco, Bosch, and Heinz among others.

MobGen has local offices in Amsterdam, Toronto, and São Paulo. MobGen's headquarters is situated in the very heart of Amsterdam where an energetic and creative team of 50 people work in an informal atmosphere. MobGen works for clients such as Shell International, ABNAMRO, Bosch, Heinz, Dutch National Lottery among others.
