

Mobile Generation – Helpdesk assistant at international Mobile and Social Media marketing agency in the heart of Amsterdam

MobGen

Mobile Generation (MobGen) is a full-service mobile marketing agency that helps national and international brands with the implementation of creative marketing activities into the mobile channel such as crossplatform applications, online social media applications and HTML5 mobile banner campaigns. MobGen recently implemented a Social Media specialized division as well as an online gaming development division. Are you able to operate all of MobGen's hardware, networks, operating systems? Are you a talented or experienced System Administrator, looking to join a fast-growing international mobile and social media marketing agency?

Join MobGen's talent program in Amsterdam for an exciting period of five months. Your skills will be tested while working on cutting edge innovative Gaming applications. MobGen has local offices in Amsterdam, Toronto, and São Paulo. MobGen's headquarters is situated in the very heart of Amsterdam where an energetic and creative team of 50 people work in an informal atmosphere. MobGen works for clients such as Shell International, ABNAMRO, Bosch, Heinz, Dutch National Lottery among others.
